

**TQC ADHESION TEST KIT (HPK)  
SP3100**

DATASHEET

**PRODUCT DESCRIPTION**

The TQC Adhesion Test Kit (HPK) is a method developed in the Netherlands by FOSAG and SKH to determine the adhesion of new and old paint layers on wood and woodlike materials. The damage on the substrate will be reduced to a minimum. The adhesion is judged by comparing the removed paint on the tape, and the remaining paint on the wood with the illustrations classifying the damage from class 0 to 5.

**SCOPE OF SUPPLY**

- Delivery includes cutting tool, tape, knife, manual and reference chart.

**ACCESSORIES**

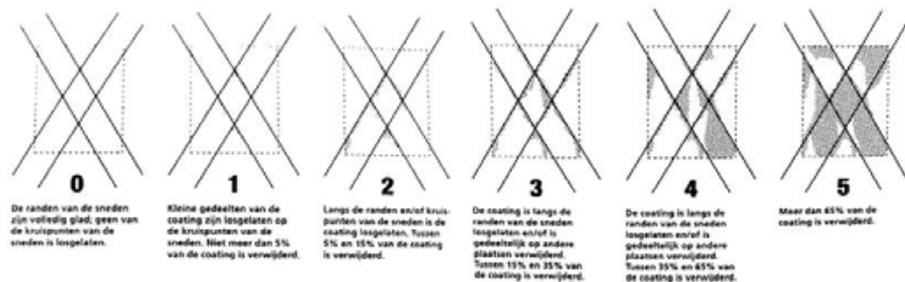

The Tape for Adhesion Test can be ordered separately as well.  
Tape Order code: SP3115

**SPECIFICATIONS**

- Dimensions: 100 x 55 mm.
- Adhesion Test Scales
- Wet film thickness test (50-160µm, in steps of 10µm).
- Levelling test (1, 1.5 and 2 mm)
- Film applicator (0-180µm, in steps of 20µm).
- Edge radius 2, 3, 4 and 5 mm

**USE**

See instruction manual

## **SAFETY PRECAUTIONS**

---

- A knife is a sharp object. Be careful when using it.

## **DISCLAIMER**

---

The right of technical modifications is reserved.

The information given in this sheet is not intended to be exhaustive and any person using the product for any purpose other than that specifically recommended in this sheet without first obtaining written confirmation from us as to the suitability of the product for the intended purpose does so at his own risk. Whilst we endeavour to ensure that all advice we give about the product (whether in this sheet or otherwise) is correct we have no control over either the quality or condition of the product or the many factors affecting the use and application of the product. Therefore, unless we specifically agree in writing to do so, we do not accept any liability whatsoever or howsoever arising for the performance of the product or for any loss or damage (other than death or personal injury resulting from our negligence) arising out of the use of the product. The information contained in this sheet is liable to modification from time to time in the light of experience and our policy of continuous product development.
